

PF3-JR Feeder, 1/4HP 1PH 115V

Description

This rugged, heavy-duty Stock Feeder features a continuous-duty motor that transfers power

from the gear box to the feed roller through the roller chain and sprockets, providing superior positive feeding for all types of materials. The fully adjustable support column features moveable universal joints and heavy locking mechanisms that lock the feeder in horizontal, vertical, or angle feed positions. Solid cast iron construction of body, base and universal joints provides stability with vibration-free feeding. The roller system provides money-saving wheel changes by allowing the replacement of a single roller, instead of a complete set.

Additional Information

Stock Number	PM9-1790818
Feed Rate (FPM)	13/26/33/62
Maximum Height of Rollers Parallel to Tabletop (In.)	6
Motor Power (HP)	1/4
Motor Voltage (V.)	115
Prewired Voltage (V.)	115
Prop 65	Cancer and Reproductive Harm
Swing (Deg.)	360
